PROJECTS

CAFE MANAGEMENT SYSTEM

- Developed a full-stack web-based cafe management system using **Java, HTML, CSS, JavaScript, MySQL, Maven, REST APIs, and Git**.
- Implemented features including menu browsing, online ordering, table reservations, customer feedback, AI-powered menu recommendations, and secure user authentication.

BOOK HEAVEN-BOOKSTORE MANAGEMENT SYSTEM

- Developed a web-based bookstore management system to manage book inventory, customer orders, and bookstore operations efficiently.
- Designed an admin management system to handle books, categories, stock updates, and customer transactions using modern software development practices.
